

**CRUSHED ROCK**  
LIMESTONE GRAVEL ALTERNATIVE

# 2A AGGREGATE MATERIALS FOR ROADBASE AND TRENCH BACKFILL

## Steel Slag Aggregates

- ⬢ Durable
- ⬢ Interlocking
- ⬢ Porous
- ⬢ Hard material
- ⬢ Cubical in shape
- ⬢ Drains well

# For Roads, Walkways and Water Line Trenches

It is a little known fact that steel slag is stronger than granite. Steel has a mohs hardness value of 6. In comparison, granite is 4 and limestone is 3. This makes it a very durable building Material.

Our slag supplied from our Steelton plant is PennDOT approved 2A aggregate, and used for roads, walkways or water line trenches.

## Steel Slag Aggregates are:

- 🏠 Locally supplied
- 🏠 Harder than Limestone
- 🏠 Economical
